

Gjerulff New Danish Star Legacies aka New

New bor nu hos Natascha i Luxemborg!

New er det bedste fra mor og far! Hun har Movies glade sind, og Dees iver efter at please og behage.

New havde de første par dage lidt svært ved at få nok mad, da hun var lige lidt mindre end de andre, og alle virkede lidt "umodne" da de var født for tidligt, og virkede ikke til at være hel klar på verden. Når hun forsøgte at spise skubbede de andre hende væk, og hun faldt i søvn igen. Jeg hjalp hende så meget jeg kunne, lagde hende til alene, så de andre ikke skubbede hende væk, og det hjalp! Hun var snart lige så stor som de andre, og lige så livlig! Hun nåede endda at overhale sine to søstre i vægt som 3½ uge.

Hun er eftertænksom, men uden at frygte noget, hun har fra start været den som har set ting an, men på den måde at hun var nysgerrig, for hun var også den som søgte "det nye" først, og var den første til at undersøge nye lyde osv. New og Poke elskede at lege sammen, da de var mere kropslige under leg, de ville gerne ligge oven på hinanden og brydde, hvor Wauw og Sum hellere ville løbe. New har fra start været den gode kombination af opmærksom mod os, og gerne ville nusse, men samtidig også gerne undersøge på egen hånd! Så hverken for fører fikseret. men heller ikke for selvstændig!

New har altid haft en for kærlighed for bolde, og den har faktisk holdt ved ;) Hun kunne løbe rundt i stuen og hygge sig med sin egen bold, kaste den rundt og løbe efter den og fange den igen, og så kaste den igen! Hun kunne underholde en i længere tid, og det var meget bedre end tv ;) Alle hvalpene havde en forkærlighed for at ligge oven på alle bamserne, men New vedholdte altså denne tendens lidt længere tid end de andre, hun var en sand prinsesse, som skulle ligge højere end de andre ;) En rigtig prinsesse på nogle punkter, men som ikke var bange for at få beskidte negle hvis det kom til stykket... :) New var en lille putte hund, og sad man på gulvet med benene over kors, så kom hun gerne hen og lagde sig oven på! Hun var lidt mere kontaktsøgende end de andre, og elskede nus og kæl!

Min beskrivelse af New kommer neden under: da jeg udvalgte hvalpene til de nye ejere fik alle en beskrivelse af deres hvalp- Endnu en gang har jeg været velsignet med en masse fantastiske hvalpekøbere, og New passede perfekt til Natascha fra Luxenborg! Det Natascha ledte efter i sin nye hund,

var lige det jeg så i New, og heldigvis havde Natascha også kastet sin kærlighed på netop hende da de var på besøg!

New is a very happy puppy, really like the human contact! And is more to the "close" fights, and is typical her and Poke laying down and wrestling... She really likes toys, but a ball is her favorite, and she is actually pretty good at playing with us, not only running away and play with herself... She's very curious, but she needs her own time and pase to explore new things... She is not at all afraid, but just more of a thinker... She don't loose her head the same way as the others, but learns from her mistakes... But I easily see her develope from time to time she see new environments and has good experience... So I think it will make your future life so much easy if you remember to reward the small things, and just remember never to let her go from something with a bad feeling about something... But then again she is therefore a very fast learner, so (compared to the others) I think she will have very easy to learn what to do and what not to do, and she will be so easy to train!! She is really a sweetheart..! But still a little fox in sheep clothes Humørikonet wink;) because when she is known and "home" she is a bully ;)

Humørikonet wink if she is allowed she will shake all her siblings and the cat

Humørikonet wink

:P

but when all the puppies had an idea of going through the fence to the bigger dog, she was the first to understand, cider only grawled one time, then New went on to something else... So I think she will fit perfectly with Sui! :)

All has the ability to relaxe when they a taken up, seek the human contact, likes to chase us, and really like to play with each other...! And remember this is New evaluation compared to siblings, if I compared her to "other normal sheltie puppies", she would be top of her class, and most fearless puppy... In this litter she is just the one who needs more time to explore adventures compared to siblngs, but we are talking about 5-10 more sekunds at the vets house before she was running around like crazy :) but it is the reason I choose her for you, you had a special connection with her, and I'm therefore sure you will handle this perfectly...

Humørikonet smile

She has been at both small seesaw, swing and plastic sounds, children's piano without putting her pase down :)

Humørikonet smile

she is also very brave, and I think that's something she gets from really

exploring the environment, because she takes everything in, and then know it, where the others just run over, and maybe next time forgets they have seen it before...

She was the one who got the most nice words from the vet for her angles H umørikonet wink

:)

she said a lot speed was hidden in those back legs.

Humørikonet wink

;)

Da Natascha kom hjem til Luxemborg skrev hun denne tekst til mig:

You were SO right about New! I'm really happy that it was you who took the decision about who gets which puppy - New is full of respect for Sui but bold and unbelievably charming at the same time, Sui loves that! They don't really know how to play with each other yet, Sui is a little too rough, but they are so cute when they are trying! New only didn't want to eat her dry food, so we were at the dogstore today to get some wet puppy-food and she loves that, she ate all her 3 meals! She was so brave at the dogstore, too, got many compliments and said hello to everyone !

And by the way, she didn't make anything inside today! Good, good baby!

Og så bliver man jo en meget meget glad opdrætter :D
