Honey is from kennel [Nice of you to come bye](#) in Holland, a well known kennel, who also breed the male

[Dice](#)

<sup>1</sup>  
 who is the father to Quicklys last litter. Honey is the mother to our [Fancy](#)

, one of the nicest and outgoing BC we know! AND now we know where it comes from! Honey is such a nice dog, and was very sweet with our son Morgan on only 1,5 year. She has a lot of inner peace, and just a happy happy dog! She has had 2 litters before this one, and is such a sweet and natural mom, that of cause also give a lot mental stabil for the puppies in the first weeks!

We expect these puppies to have a lot inner peace, and just a perfect family dog, with the right amount of activity level and will to please in all dogsports! Honey had unfortunately an injury as a puppy, so Ann has been extra careful with sports with her, to be sure she can stay with her as long as possible! But for sure it's obvious that she has it in her, when you see her fantastic puppies from the first 2 litters!

We have always seen Fancy as a perfect wife for Number, so we wasn't that much in doubt that Honey would be to!

Honey is that type of dog, we easily could have had in our house, and easily

could have fall right in, and find her place, she sure is a wonderful girl, and I am a big fan! Luciky we already have 1 Honey puppy, and we also really adore her! Honey was here with Ann, and we got 3 matings over 3 days! Honey and Number really liked each other, and the matings was easy and Quick!

**Puppies was born 19. january 2018**

**9 stunning puppies !☐**

**6 girls, and 3 boys!**
